

ULLAS S

CAREER OBJECTIVE

Aspiring Data Analytics and Machine Learning professional with a strong foundation in Python, SQL, data visualization, and analytical problem-solving. Seeking opportunities to apply data-driven decision-making skills while contributing to business growth and continuously expanding technical expertise.

EDUCATION

Coorg Institute Of Technology	2022-2026
Bachelor of Engineering – Artificial Intelligence & Data Science	
BGS Pre-University College	2021 - 2022
PCMB	

TECHNICAL SKILLS

- Programming & Development:** Python (Core, OOP, Data Structures) SQL
- Data & Analytics:** Pandas, NumPy, Exploratory Data Analysis (EDA)
- Databases & Integration:** SQL (MySQL, SQLite), MongoDB
- Cloud & Tools:** Git, GitHub, Power BI, MS Excel

PROJECTS

Neurological Disorder Detection Using Gait Analysis

- Developed an AI-driven system using Python to preprocess sensor-based gait data and extract features.
- Applied machine learning classification models to detect abnormal movement patterns.
- Focused on data preprocessing, model validation, and result interpretation—similar to engineering data analysis workflows.

Blood Bank Management System

- Developed a database management system using MySQL.
- Managed donor, blood inventory, and transaction records.
- Improved data retrieval and record accuracy through structured database design.

AI Smart Study Planner

- Built a dashboard to track user activity and learning patterns.
- Used analytics to generate insights from student usage data.
- Applied AI-based analysis for personalized learning recommendations.

INTERNSHIP EXPERIENCE

Infosys – Data Visualization Intern	Jan 2026-May 2026
- Analyzed airline datasets to identify trends in delays, cancellations, and performance. - Created visualizations and reports for data-driven insights.	

Inventron Technologies – Data Analyst Trainee	Jan 2026-May 2026
- Collecting and organizing data from Excel and SQL sources. - Performing SQL queries and exploratory data analysis (EDA).	

CERTIFICATIONS

- Python for Data Science
- Introduction to Deep Learning
- Database Management System – Science Graduates
- Introduction to Entity Relationship (ER) Modeling
