CAREER OBJECTIVE

Aspiring Data and Machine Learning professional seeking an entry-level role where I can apply my knowledge of data analysis, machine learning concepts, and programming skills to solve real-world problems while continuously learning and growing in a collaborative environment.

EDUCATION

COORG INSTITUTE OF TECHNOLOGY 2022-2026 BACHELOR OF ENGINEERING

Bachelor of Engineering – Artificial Intelligence & Data Science

BGS PRE-UNIVERSITY COLLEGE 2021 - 2022 PRE-UNIVERSITY COLLEGE

Completed PUC with 85% in PCMB from BGS College, Arkalgud, demonstrating strong academic performance in science and mathematics

TECHNICAL SKILLS

- **Programming & Development:** Python (Core, OOP, Data Structures), Java (basic), application development fundamentals
- **Data & Analytics:** Pandas, NumPy, data preprocessing, Exploratory Data Analysis (EDA), basic machine learning (classification, model evaluation)
- **Databases & Integration:** SQL (MySQL, SQLite), MongoDB (basic), REST APIs
- **Cloud & Tools:** Git, GitHub, Power BI, MS Excel

INTERNSHIP EXPERIENCE

Infosys – Data Visualization Intern (Current)

- Project: Air Flight Data Analysis
- Analyzing airline dataset to identify trends in delays, cancellations, and performance.

Inventron Technologies – Data Analyst Trainee (Current)

- Collecting and organizing data from Excel and SQL sources.
- Performing SQL queries and exploratory data analysis (EDA).

PROJECTS

Neurological Disorder Detection Using Gait Analysis

- Developed an AI-driven system using Python to preprocess sensor-based gait data and extract features.
- Applied machine learning classification models to detect abnormal movement patterns.
- Focused on data preprocessing, model validation, and result interpretation—similar to engineering data analysis workflows.

Blood Bank Management System

- Implemented a database-driven application using MySQL to manage donor and inventory data.
- Ensured data accuracy, consistency, and efficient retrieval.

Task Management System

- Worked with REST APIs and backend data operations to manage task workflows.
- Gained exposure to system integration, validation, and structured data handling.

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst (PL-300)
- IBM Data Science Professional Certificate (Coursera)
- Google Data Analytics Professional Certificate
- Microsoft Azure Data Scientist Associate (DP-100)
- AWS Certified Data Analytics

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge and belief.
